Quotation Q160397

Dear Mark,

Further to your recent enquiry I have pleasure in submitting our quotation for the purchase of the Keil ARM development tools as follows.

For the ARM Product Selector click [here](#) this will provide further detailed information about the differences in the compiler editions.

Description of goods – MDK & DS5 Software Editions

Order code	Description	Price Per Unit	Quantity	TOTAL Price	Lead Time
MDK-PRO-LC	MDK-Professional combines the ARM C/C++ Compiler with the Keil RTX real-time operating system and middleware libraries. All the tools are integrated into µVision which includes project management, editor and debugger in a single easy-to-use environment. MDK-Professional includes a flexible File System and Middleware libraries for TCP, USB, and CAN peripherals. Inc 12months support and upgrades. Single user Node Locked Licence.	£6447	One	£6447	Up to 5 working days
MDK-ARM-LC	µVision Standard Edition for ARM with RealView C/C++ compiler, simulator/debugger, RTX kernel, single user node-locked licence. Including downloads and technical support for 12months.	£3325	One	£3325	Up to 5 working days
DS5PE-KD-30000	DS-5 PROFESSIONAL Edition: Professional solution for developers working on applications and libraries written in C/C++. It makes use of standard connections like Ethernet and USB for application debugging and system performance analysis. Including Compiler, Bootloader Debug and Trace. Single user NODE LOCKED license, with 12months support.	£4480	One	£4480	Up to 5 working days

Please note the Keil MDK Version packages are changing for all orders placed after the 01.05.2016, due to the new release of the MDK-Plus Edition which replaces the MDK-ARM Standard Edition – please check the attached “Editions Flyer” for further details.

Please note the above licences are node locked single user licences for one engineer, if you would prefer the FLEX-LM floating licence then please let us know and we can provide pricing for the FLEX licenses.

If you would like a quote for the lower priced “Time Licenses” from Keil which run as normal with full support and upgrades for the 12 months license term then revert to the Lite Edition at the expiry date then please let me know.

Carriage-E	Electronic Software Delivery	£0.00

Description of goods - Hardware

Order code	Description	Price Per Unit	Quantity	TOTAL Price	Availability
ULINK2	ULINK2 Debug Adapter. Supports various ARM7, ARM9, Cortex-M, 8051, and C166 devices.	£265	One	£265	Up to 5-10 working days
ULINKPro-D	ULINKpro-D Debug Adapter: The Keil ULINKpro-D Debug and Trace Unit connects your PC's USB port to your target system (via a JTAG, Cortex Debug, or Cortex Debug+ETM connector). It allows you to program, debug, and analyze your applications using its unique streaming trace technology. <u>The ULINKpro D Debug Unit has the same high debug performance as the ULINKpro, but does not support ETM Instruction Trace.</u>	£468	One	£468	Up to 5-10 working days
ULINKpro	ULINKpro Debug Adapter. Delivers real-time data and instruction trace streaming via USB. The unique streaming trace capabilities of ULINKpro delivers sophisticated analysis features such as: <ul style="list-style-type: none"> • Complete Code Coverage information about your program's execution ensures thorough application testing and verification • Performance Analysis using the Execution Profiler and Performance Analyzer enable you to identify program bottlenecks, optimize your application, and to isolate problems • Streaming instruction trace requires the target device to have ETM (Embedded Trace Macrocell) 	£851	One	£851	Up to 5-10 working days

Carriage-1	UK Mainland & Northern Ireland Next Day Delivery STANDARD Delivery, per drop.	£18.00
Carriage-3	International Insured Delivery, per drop. EU & EIRE. For Worldwide, please ask for quotation.	£35.00

How to order

Please place your order in one of the following ways.

- 1) Email your order to orders@hitex.co.uk
- 2) Fax your order to **+44 (0) 24 7669 2131**

I hope you find the above quotation acceptable. If you require any further information, please do not hesitate to contact me.

Best Regards,

Louise Taylor
Hitex (UK) Ltd.

- MOV = Minimum Order Value
- MOQ = Minimum Order Quantity

About Hitex

Hitex has been serving the UK embedded systems business for nearly 20 years. We offer a complete range of embedded development tools, boards and modules, backed by expert technical support.

Hitex UK is run by chartered electronics engineers with backgrounds in automotive, medical and other high integrity fields. This expertise is available to UK customers as part of development tool packages or separately by way of training, consultancy and even complete product design.

Complementing our deeply embedded activities, our industrial PC systems group offers high performance, internationally-sourced computing and networking solutions, based on Windows CE.NET, QNX and Linux.

As part of the complete "one-stop" service, we also represent leading overseas suppliers in the UK, each having a nominated specialist amongst our team.

For more information about any of our products, tools and services, please contact your existing representative or contact us at sales@hitex.co.uk or +44 (0) 24 7669 2066.
