Test Case

TC-1   Does the test case have a reasonable probability of exposing a defect?

TC-2   Does the test case contain sufficient detail for any engineer on the project to be able to execute it?

TC-3   Does the test case contain expected results?

TC-4   Is the test case unique?

TC-5   Does the test case contain a unique ID number or title?

TC-6   If appropriate, does the test case contain relevant configuration information?

TC-7   If appropriate, does the test case indicate whether or not it is a critical regression test case?

TC-8   If appropriate, does the test case indicate its type (negative, boundary, positive, etc.)
